

How to Fold a Fitted Sheet

Say goodbye to crinkly messes

Christopher Coppola

Step 1:

Lay the sheet on a bed or a large table and fold in and smooth all the edges.

Christopher Coppola

Step 2:

Fold in half horizontally, sliding the top gathered end into the pocket of the bottom gathered end. If the sheet's sides are ungathered, lay them flat; if gathered, slide them in, too.

Step 3: Fold in half horizontally again.

Christopher Coppola

Step 4:
Fold the bulky end horizontally to the middle of the sheet.

Christopher Coppola

Step 5:
Then fold over the smooth end.

Christopher Coppola

Step 6:

Fold lengthwise in thirds, or to your desired size.
